English Language/Composition	4	LIT 170-Topics in English	1
English Language/Composition	5	LIT 270-Topics in English	1
English Literature/Composition	3	General Elective	1
English Literature/Composition	4	LIT 170-Topics in English	1
English Literature/Composition	5	LIT 200-Introduction to Poetry	1
Government & Politics: Comparative	3	General Elective	1
Government & Politics: Comparative	5	POL 150 Introduction to Comparative Politics (College Core Social Science)	1
Government & Politics: U.S.	3	General Elective	1
Government & Politics: U.S.	5	POL 110 American Government (College Core Social Science)	1
European History	3	General Elective	1
European History	4	HIS 120 Topics: Modern Europe (College Core History Europe)	1
U.S. History	3	General Elective	1
U.S. History	4	HIS 165 Topics: North America/US (College Core History US)	1
World History	3	General Elective	1
World History	4	HIS 187 Topics: World History (College Core History World)	1
Human Geography	4	HIS 187 Topics: World History (College Core History World)	1
Chinese Language	5	CHI 151 Chinese I – II, and Language requirement waived	2

French Language	5	FRE 102-103 French for Beginners II-III	2
German Language	5	GER 102-103 German for Beginners II-III	2
Italian Language	5	ITL 102-103 Italian for Beginners II-III	2
Japanese Language	5	JPN 151 Japanese I – II, and Language requirement waived	2
Latin	4	LAT 101 & 102 Latin I-II	2
Spanish Language	5	SPA 102-103 Basic Spanish Sequence II-III	2
Spanish Literature	4	College Core, Literary Visual and Performing Arts, and SPA 103-Spanish III	2
Psychology	3	PSY 101 Introduction to Psychology (College Core Social Science)	1
<b>Science and Mathematics</b>			
Biology	4	Liberal Learning Science (Biology Majors Elective only)	1
Environmental Science	4	Liberal Learning Science (Biology Majors Elective only)	1
Chemistry	4**	CHE 201 - General Chemistry I (College Core Science) (Chemistry Majors will be advised whether to accept credit for this exam)	1
Chemistry	5**	CHE 201 & 202 - General Chemistry I & II (College Core Science) (Chemistry Majors will be advised how to accept credit for this exam)	2
Physics 1: Algebra-Based (with lab component)	4	PHY 121 Principles of Physics (College Core Science)	1
Physics 2: Algebra-Based (with lab component)	4	PHY 122 Principles of Physics II (College Core Science)	1
Physics C: Mechanics (with lab component)	4**	PHY 201 General Physics I (College Core Science)	1
Physics C: Electricity & Magnetism (with lab component)	4**	PHY 202 General Physics II (College Core Science)	1
Computer Science A (Java)	4^	CSC 220 - Computer Science I: Computer Problem Solving	1
Computer Science Principles	4	CSC 102 – Introduction to Computational Thinking (College Core, Quantitative Reasoning; Computer Science Majors elective credit only)	1
Precalculus	4	MAT 119 Introduction to Functions or MAT 120 Precalculus (For placement purposes only) Next course to take: MAT 125 or MAT 127	0
Calculus AB	4	MAT 127 Calculus A (College Core Quantitative Reasoning) or MAT 125	1
Calculus BC	3	MAT 127 Calculus A (College Core Quantitative Reasoning) or MAT 125	1
Calculus BC	4	MAT 127-128 Calculus A – B (College Core Quantitative Reasoning)	2
Statistics	3	STA 115 Statistics (College Core Quantitative Reasoning)	1
Statistics	5***	STA 215 Statistical Inference or STA 216 Statistical Inference and Probability (College Core Quantitative Reasoning)	1

\*\* Physics and Chemistry majors must see department for advisement.

\*\*\* Students in the Mathematics Secondary Education major or in a Mathematics Teaching major with a score of 5 on this AP exam will receive credit for STA 216. ^ Students with a minimum score of 4 for the AP Computer Science A test taken in 2020 will receive credit for one College Core, Quantitative Reasoning, but must pass the TCNJ placement test to upgrade the award to CSC 220 - Computer Science I: Computer Problem Solving.
